PROFESSIONAL EXPERIENCE

FULL-STACK ENGINEER– freelancer   2024—Present
- Collaborating on a few projects using Laravel, React, and Vue.js.

FULL-STACK DEVELOPER – Bellwether Coffee   2021—2024
- Collaborated on multiple projects and managed repositories primarily using Laravel, React, and Vue.js, while also integrating and maintaining additional frameworks and technologies as needed.
- Designed and implemented full-stack solutions, integrating different JS frameworks, pure JS, and CSS with backend services and APIs.
- Effectively communicated and collaborated with an international team to deliver high-quality solutions, ensuring alignment and efficiency across frontend and backend development.
- Conducted thorough code reviews to ensure adherence to best practices and maintain high code quality, fostering a culture of continuous improvement within the team.

FULL-STACK DEVELOPER – Applied Cognitive Diagnostics   2021—2021
- Worked on an exciting AI project as a full-stack developer (RoR, node, react, MySQL), automating a promotion selection process, saving a lot of time and money for the company.
- Created many scripts to process and clean data in a short period, helping the company to fix unexpected issues on time.

FULL-STACK DEVELOPER – XML Team Solutions   2020—2021
- Successfully launched a new version of two websites, working closely with a great team and the CEO.
- Revamped marketing and sports website, renewing code and design, and updating dependencies.
- Worked with extensive databases and different programming languages and frameworks such as RoR, Laravel, MySQL, Vue, Sass, Typescript, PHP, and JS.
- Helped implement and update internal packages, allowing future external integrations to be possible.

FULL-STACK DEVELOPER – Zenit   2018—2019

- Launched a large full-stack project for a bovine company, improving the company's processing times.
- Worked in wide database construction, handling multiple relationships, migrations, and seeders for an easy backend collaboration environment.

ENTREPRENEUR - WEB DEVELOPER – Freelance   2012—2018

- Created and deployed multiple websites, supporting thousands of views and expanding the customer's scope in the local market.
- Created our websites that we monetized through ads.
- Assisted customers with databases and tech issues.

EDUCATION

CERTIFICATE IN FULL-STACK DEVELOPMENT – Microverse   2019—2020

- Completed 1000+ hours on a full-time remote pair programming course.
- Attained mastery in multiple languages and important frameworks such as React on Ruby on Rails.
- Mentored junior full-stack developers, assisting with code reviews and technical/soft skills.

LIC. SISTEMAS DE INFORMACIÓN – Universidad de Guadalajara   2011—2014

- Bachelor's degree
